I am a Computer Science student with hands-on experience in full-stack development using Java, Python, React, HTML, CSS, and MySQL. I have built real-time projects such as ecommerce platforms, rental systems, and interactive games during my internships. I'm a quick learner with strong problem-solving skills and a good understanding of databases and web development tools. I enjoy creating user-friendly applications and continuously improving my technical abilities.

## Projects

### BuZZ Mart \_ Ecommerce Platform

Jun 2025 - Jul 2025

BuzzMart is a MERN-based grocery eCommerce site with customer and seller modules, real-time operations, role-based access, Stripe/COD payments, inventory management, and features like login, order history, and a responsive user interface for a smooth shopping experience.

- Tech Stack: MongoDB, Express.js, React, Node.js, Stripe API, HTML, CSS, JavaScript, Git

### Vehicle Rental Management System

Oct 2022 - Dec 2022

Developed a Vehicle Rental Management System to automate rental operations with secure login, user registration, password management, and vehicle search. Designed a user-friendly interface and connected it to a backend database, ensuring smooth navigation and efficient vehicle and user data management.

- Tech Stack: HTML, CSS, Django, MySQL
- Tool Used: PyCharm Community Edition 2022.3

### 3D Model Industrial robot

Oct 2021 - Nov 2021

Designed a detailed industrial robot prototype using Fusion 360, leveraging parametric modelling for flexible iterations. Focused on optimising structure, aerodynamics, and usability, this 3D model reflects precision engineering, creative innovation, and advanced design excellence.

- Tool Used: Fusion 360

## Volunteer Experience

### Core Member

Jun 2023 - Jun 2024

*Megha Club*

Megha Club is a student-led technical club promoting emerging tech knowledge through events. As a core member, I prepare presentation content, handle event documentation, research topics, design visuals, and coordinate with the team to ensure smooth session execution.
