## RESUME SUMMARY

Currently pursuing a degree at KL University, I am a tech enthusiast with expertise in 3D modeling, Python, and web development. Passionate about leveraging technology for positive industry change, as showcased in my projects like Vehicle Management System and 3D Model Industrial robot. Certified in Red Hat Enterprise Development and Oracle Cloud Infrastructure Architect. Looking forward to contributing to innovative projects.

## PERSONAL DETAILS

Current Location Vijayawada  
Date of birth June 8, 2004  
Gender Male

## EDUCATION

Graduation B.Tech/B.E. ( Computers )  
Koneru Lakshmaiah Education Foundation (KL University), Vaddeswaram,  
Vaddeswaram with Score 8.6%  
Class XII Telangana  
with 89% in 2021  
Class X Telangana  
with 97% in 2019  
Certification Course EX183 Red Hat Certified Enterprise Application Developer ( December 2023 -  
December 2024 )  
Oracle Cloud Infrastructure 2023 Certified Architect Associate ( August 2023 -  
August 2024 )

## INTERSHIPS AND PROJECTS

Internships **Bharat Intern** ( Duration March 2024 - April 2024 )  
In is a Virtual Internship Program at BHARAT INTERN in Web Development as  
an active participant. through this i am able to know my knowledge limits in  
web development and i have gained more knowledge and experience in web  
development.  
Skills used - HTML,CSS  
Projects **Vehicle Mangement System** ( Duration October 2022 - December 2022 )  
A Vehicle Rental Management System (VRMS) is a software application  
designed to streamline and automate the process of managing vehicle rentals.  
We implemented secure login, registration, and password management  
features. Created a database for storing user information and vehicle details.  
Integrated a vehicle search functionality for easy navigation. This project  
showcases our ability to leverage technology for positive industry change. For  
this we used Pycharm Community Edition 2022.3 Software. Frontend:  
HTML,CSS Backend: Django, MySQL  
Skills used - Django,Backend,MySQL  
**3D Model Industrial robot** ( Duration October 2021 - November 2021 )  
Introducing our groundbreaking 3D model crafted entirely within Fusion 360,  
showcasing the pinnacle of design excellence and engineering ingenuity. We've  
meticulously sculpted every contour and refined every detail of our industrial  
robot prototype. With Fusion 360's advanced parametric modeling capabilities,  
we've achieved unparalleled flexibility in design iteration, enabling us to fine-  
tune the geometry to perfection. Whether it's optimizing structural integrity,  
enhancing aerodynamics, or ensuring ergonomic usability, our 3D model  
represents the culmination of iterative refinement and creative innovation.  
Skills used - Fusion 360,3D Modeling

## SKILLS AND ACHIEVEMENTS

Skills Problem Solving,Core Java,Python,SQL,Frontend Web Development,3D  
Modeling  
Language English ( Read/Write )
